

COOLFIT® SHADE SAIL

WATER-PERMEABLE

- Protects against 95% of the damaging UV rays
 - Simple to clean
 - Custom sizes possible
 - 5 year warranty on the fabric
- Create your ultimate shade!
A trendy shade solution without the annoyance of bothersome umbrella base.
The Coolfit shade sail protects up to 95% against damaging UV rays. The shade is made of woven polyester fabric, 285gr/m2.
The shade has an open structure the daylight that comes through is preserved, but you still enjoy protection against the sun. Because of this open structure the shade can stay outside the whole season, even with strong winds. Cleaning is easy with warm water, a soft brush and a little bit of soft soap to keep the shade sail nice as long as possible.

COOLFIT® MOUNTING OPTIONS

DREAMSAIL® SHADE SAIL

WATERPROOF

- Hang at 30 degrees gradien
 - Custom sizes possible
 - 3 year warranty on the fabric
- Stay outside during a little rain..
Enjoy staying outside even longer with the Dreamsail shade sail. The shade is made of fine woven polyester fabric, 220gr/m2. Because of the dense structure the shade is waterproof. You can now enjoy your garden even with a little rain.
The shade needs to be hung at 30 degrees gradien to drain the water.

PRODUCTINFORMATION

When placing the Nesling shade sails we always advice to use the Nesling mounting materials. These are made of high quality stainless steel AISI 316. With the Nesling Turnbuckles you can make sure the shade hangs tight. These Turnbuckles also make sure the shade is less susceptible to wind. Because of the great variety of mounting materials there is something available for most types of mounting; brick walls, wooden poles or wooden fences.
When theres no possibility to mount the shade sail on existing walls, you can also use our Pole with flexe eye. This is placed easily in the ground with the corresponding Pole anchor.

NESLING®
THE PERFECT SHADOW

Nesling B.V.
Kwartsweg 36
